CLASS PLACEMENT

Level Placement

We provide general age guidelines for each class, but ultimately, level placement is determined by technical skill, coordination and overall ability. Students should sign up for their age class and if a teacher feels they are in the wrong class level, OPDC will contact you about a schedule change. **Ages are of January 1st, 2027.**

Acro dancers are evaluated the year before and their placement recommendations will show up on your Parent Portal. You may also e-mail to ask. New Acro dancers wishing to register for non beginner classes should contact the studio to schedule a placement evaluation.

Students should expect to spend a few years in each level before advancing. Teachers are always available to offer additional feedback and support to help students achieve their dance goals.

Placement decisions are based on many years of teaching experience. We place each child in the group or class where we believe they will feel confident enough to develop self-esteem. Some students might become discouraged if placed in a higher level before they are ready, potentially losing their passion for dance. Placement is highly individual, and the factors involved in these decisions are complex.
